

Check-up Premium for women - 1

Description

The program is designed for “health-conscious” people who have no health complaints but want information about their health. A preventive program for a more in-depth examination of the female body, as well as the selection of medical recommendations for disease prevention, evaluation of the work of the main systems (cardiovascular, respiratory, digestive, nervous and genitourinary), selection of medical recommendations for the treatment and prevention of diseases.

Program duration: 2-3 days.

Accompaniment of the service nurse is provided at all stages of the program.

The program can be supplemented with any services if medically required (after examination of the general practitioner) or by the request of the patient (according to the main price list).

Check-up Premium for women - 1		Residents 793 400KZT	Citizens of CIS countries 1 030 110KZT	Citizens of non- CIS countries 1 344 200 KZT
	Examination by the general practitioner	10 000	13 000	17 000
1	General blood test (expanded)	2 200	2 860	3 700
2	General urine test	1 400	1 820	2 300
3	Blood biochemistry: ALT, AST, total bilirubin, direct bilirubin, blood sugar, total cholesterol, coagulogram , uric acid, total protein, creatinine, urea, lipid profile (HDL, LDL), triglycerides, rheumatoid factor (quantitative), C-reactive protein, alkaline phosphatase, GGTP, serum iron, ferritin	33 720	43 820	56 500
	Electrolytes (potassium, sodium, calcium ionized, phosphorus, magnesium)	8 600	11 180	14 500
5	Vitamin D, Vitamin B12, folic acid	11 600	15 080	19 600
6	Determination of total antibodies to hepatitis B and C viruses	5 280	6 860	8 800
7	Cancer-specific markers: Ca19.9, CA-125, CA 15-3, Cyfra21-1, CA 72-4, alpha-fetoprotein, cancer-embryonic antigen, HE 4, calcitonin	42 700	55 510	72 200

8	Hormones: TSH (thyroid-stimulating hormone), free thyroxine (free T4), free triiodothyronine (free T3), thyreoperoxidase Ak, intact insulin, C-Peptide, glycated hemoglobin, luteinizing hormone (LH), progesterone, prolactin, testosterone, follicle-stimulating hormone (FSH), estradiol	35 300	45 890	59 400
10	Microreaction	1 250	1 620	2 100
11	Blood sampling with a holder	1 000	1 300	1 700
12	ECG	5 000	6 500	8 500
13	Echocardiography	17 500	22 750	29 700
14	Color duplex scanning of brachiocephalic artery	14 000	18 200	23 800
15	Color duplex scanning of lower extremity arteries	13 000	16 900	22 100
16	Color duplex scanning of lower extremity vein	14 000	18 200	23 800
17	Treadmill test	14 900	19 370	25 300
18	Spirography with functional tests	9 000	11 700	15 300
19	Ultrasound of the thyroid gland	7 600	9 880	12 900
20	Comprehensive ultrasound of the abdominal cavity organs	9 500	12 350	16 100
21	Ultrasound of the kidneys	5 800	7 540	9 800
22	Ultrasound of the pelvic organs	8 200	10 660	13 900
23	Ultrasound of the mammary glands	10 000	13 000	17 000
24	Computed tomography of thoracic organs with contrast (if medically required)	56 000	72 800	95 200
25	Computed tomography of abdominal organs with contrast (if medically required)	56 000	72 800	95 200
26	MRI of two parts of the spine (1.5TL) without contrast	60 000	78 000	102 000
27	MRI of the brain in angio mode	34 000	44 200	57 800
28	MRI of the pelvic organs with contrast (if medically required)	61 500	79 950	104 500
29	X-ray osteodensimetry in 2 projections	16 700	21 710	28 300
30	Examination by the gynecologist (primary, follow-up)	17 000	22 100	28 900
	Examination of vaginal smear for purity	3 000	3 900	5 100
	Oncocytological examination of smear	2 950	3 830	5 000
	PCR for urogenital infections	38 700	50 310	65 000
	Smear sampling	1 100	1 430	1 800
	PCR sampling	1 200	1 560	2 000
31	Examination by the ophthalmologist	15 000	19 500	25 500
	Visual acuity test	650	840	1 100
	Photo of eye fundus -fundus camera	2 250	2 920	3 800
	Tonometry on a non-contact tonometer	900	1 170	1 500

	Keratorefraction	1 100	1 430	1 800
	Optical coherence tomography of the macula	6 400	8 320	10 800
	Optical coherence tomography of the optic disc	6 200	8 060	10 400
	Perimetry	2 400	3 120	4 000
	Biomicroscopy	1 000	1 300	1 700
	Examination by the ENT doctor	10 000	13 000	17 000
32	Video endoscopy: nose, ear canals, pharynx, larynx Audiometry	13 200 4 000	27 040	22 200 6 800
33	Video Gastroscopy with histological/cytological examination for H.pylori	20 000 11 500	26 000 14 950	34 000 19 400
34	Endoscopic excisional biopsy	7 000	9 100	11 900
35	Videocolonoscopy	24 000	31 200	40 800
36	IV sedation	15 000	19 500	25 500
37	Mammography	9 300	12 090	15 800
38	Body composition analysis	6 800	8 840	11 500
39	Issuance of the conclusion by the general practitioner upon completion of check-up	7 000	9 100	11 900
